January—December 1963

Pages 1—1839

## ANNUAL INDEX OF AUTHORS

Abdulaev, R. N. <i>On the solvability condition of the Riemann homogeneous problem on closed Riemann surfaces</i> .....	1525
• Ačil'diev, A. I. <i>First and second boundary value problems for elliptic equations which degenerate at a finite number of interior points</i> .....	1209
Agranovič, M. S. and Višik, M. I. <i>Elliptic boundary value problems depending on a parameter</i> .....	325
Aizenberg, L. A. <i>Integral representations of functions which are holomorphic in convex regions of <math>C^n</math> space</i> .....	1149
Akivis, M. A. <i>The structure of <math>n</math>-dimensional surfaces carrying a net of curvature lines</i> .....	529
Aksent'ev, L. A. <i>Indices of functions on Riemann surfaces</i> .....	1205
Aleksandrov, I. A. <i>A variational method of solving extremum problems in certain classes of analytic functions</i> .....	1106
Alenicyn, Ju. E. <i>The conformal mappings of a multiply connected region on many-sheeted canonical surfaces</i> .....	717
Al'per, S. Ja. <i>Best approximation of analytic functions in the mean of order 1 on a circumference</i> .....	1687
Andrunakievič, V. A. and Rjabuhin, Ju. M. <i>The imbedding of modules</i> .....	1692
Anosov, D. V. <i>Ergodic properties of geodesic flows on closed Riemannian manifolds of negative curvature</i> .....	1153
Arhangel'skiĭ, A. <i>Bicompact sets and the topology of spaces</i> .....	561
<i>On a class of spaces containing all metric and all locally bicompact spaces</i> .....	1051
<i>Some types of factor mappings, and the relations between classes of topological spaces</i> .....	1726
Arnol'd, V. I. and Krylov, A. L. <i>Uniform distribution of points on a sphere and some ergodic properties of solutions of linear ordinary differential equations in a complex region</i> .....	1
Aršon, I. S. and Iglickiĭ, M. A. <i>On the decrease of harmonic functions in a cylinder</i> .....	1383
Babuška, Ivo <i>Optimal quadrature formulas</i> .....	330
Bagaeva, N. Ja. and Moiseev, N. N. <i>A method for the numerical solution of optimum control problems</i> .....	1730
Bahtin, I. A. <i>Optimal values and points of a certain nonlinear function</i> .....	148
Bakel'man, I. Ja. and Guberman, I. Ja. <i>The Dirichlet problem for an equation containing the Monge-Ampère operator</i> .....	44
Balk, M. B. <i>Picard's theorem for bianalytic entire functions</i> .....	1529
Barhin, G. S. and Fomenko, V. T. <i>A piecewise regular surface with positive curvature uniquely determined by a boundary condition</i> .....	1464
Bavrin, I. I. <i>Estimates in the theory of regular functions of two complex variables</i> .....	1110
<i>Criteria for determining whether a given regular function belongs to two classes of functions of two complex variables</i> .....	1275
Beklemišev, D. V. <i>Classification of bundles of quadratic forms involving three variables</i> ....	492
Belickiĭ, G. R. <i>Chains of matrix norms</i> .....	883

Beljaev, V. A. Absolute convergence of a power series in two variables .....	6
Beljustina, L. N. Small periodic perturbations in a structurally stable autonomous system ...	48
Berezanskiĭ, Ju. M. On the smoothness of the spectral function of a selfadjoint elliptic differential operator up to the boundary of the domain .....	1319
Berezanskiĭ, Ju. M.; Kreĭn, S. G. and Roĭtberg, Ja. A. A theorem on homeomorphisms and local increase in smoothness up to the boundary of solutions to elliptic equations	152
Berezin, F. A. Canonical transformations in representation of second quantization .....	766
Berkovič, F. D. Solution of an infinite system of linear algebraic equations in a class of increasing sequences .....	392
Berkovič, Ja. G. Characterization of certain classes of finite groups .....	1115
Berman, D. L. A contribution to the theory of polynomial operations .....	1056
On the theory of semigroups of linear operators .....	1581
Berman, S. D. Integral representations of finite groups .....	1533
Besov, O. V. Continuation of functions with conservation of their differential and difference properties in $L_p$ .....	770
Bicadze, A. V. A homogeneous problem for the slant derivative for harmonic functions in three-dimensional regions .....	156
Birjukov, A. P. Semigroups defined by identities .....	333
Blagoveščenskĭĭ, Ju. N. Differential properties of the trajectories of parameter-dependent diffusion processes and the Cauchy problem for degenerate parabolic equations ...	1468
Bogaevskiĭ, A. N. Harmonic functions on $GL(2)$ .....	1734
Bokšteĭn, M. The universal coefficient theorem for the spectral cohomology of differential groups .....	192
Borisovič, Ju. G. Periodic solutions of differential operator equations with a small parameter in the term containing the derivative .....	52
The Poincaré-Andronov method in the problem of periodic solutions of differential equations with a lag .....	1388
An application of the concept of rotation of a vector field .....	1584
Borovikov, V. A. Green's function for the problem of diffraction by a polyhedral angle .....	963
Borovkov, A. A. Some results of analysis of large deviations in boundary problems .....	959
Borovkov, A. A. and Rogozin, B. A. Asymptotic representations in certain problems for two- dimensional random walks .....	885
Bovdi, A. A. Imbedding of crossed products in fields .....	1157
Bredihin, B. M. The use of the dispersion method in binary additive problems .....	281
Bronšteĭn, I. U. Recurrence, periodicity and transitivity in dynamical systems without uniqueness .....	889
Brudnyiĭ, Ju. A. Generalization of a theorem of A. F. Timan .....	244
Brudnyiĭ, Ju. A. and Kotljars, B. D. The order of growth of $\epsilon$ -entropy on certain compact classes of functions .....	196
Brudovskiĭ, B. S. Countability conditions in locally convex spaces .....	1472
Bugrov, Ja. S. Differential properties of solutions of certain differential equations of higher order .....	56
Continuation of functions .....	826
Buhvalov, A. M. Construction of nomograms for equations of the first kind with three vari- ables .....	200
Bulavskiĭ, V. A. and Rubinšteĭn, G. S. Solution of convex programming problems with linear constraints by successive refinement of an admissible vector .....	619

Čaljuk, Z. B. <i>On the stability of systems of linear integral equations of Volterra type</i> .....	662
Čan Van Hao (Ch'ang Wang-hao) <i>On the minimal radical class over a class of abelian groups</i> .....	552
Cereteli, O. D. <i>Fourier series and the metric properties of functions</i> .....	1006
Černavskii, A. V. <i>Finitely multiple open mappings of manifolds</i> .....	946
Černikov, S. N. <i>Contraction of finite systems of linear inequalities</i> .....	1520
Čerskiĭ, Ju. I. <i>Two theorems on error estimation and their applications</i> .....	666
Cišang, H. (Zieschang, H.) <i>Classification of simple systems of paths on a solid pretzel of genus 2</i> .....	1460
<i>On a problem of Neuwirth concerning knot groups</i> .....	1781
Delone, B. N. and Ryškov, S. S. <i>Solution of the problem of the least dense lattice covering of a four-dimensional space by equal spheres</i> .....	1333
Derguzov, V. I. <i>On the stability of solutions of Hamiltonian equations in Hilbert space with unbounded periodic operator coefficients</i> .....	1543
Derguzov, V. I. and Jakubovič, V. A. <i>Existence of solutions of linear Hamilton equations with unbounded operator coefficients</i> .....	1169
Dezin, A. A. <i>The simplest solvable extensions of ultrahyperbolic and pseudoparabolic operators</i> .....	208
Din' N' ě T'ong <i>Preclosed mappings and Taĭmanov's theorem</i> .....	1335
Diskant, V. I. <i>Estimates for the diameter and the breadth of convex surfaces of bounded Gauss curvature</i> .....	1701
D'jačenko, V. F. <i>Conditions for the uniqueness of a continuous solution of the problem of the decay of the discontinuity for a set of three equations</i> .....	1800
D'jakonov, E. G. <i>The use of difference schemes with splitting operators for hyperbolic equations with variable coefficients</i> .....	1065
Dnestrovskii, Ju. N. and Kostomarov, D. P. <i>Eigenvalue problems for second-order equations with nonlinear dependence on the parameter <math>\lambda</math></i> .....	1224
Dobrušin, R. L. <i>Individual methods for transmission of information for discrete channels without memory and messages with independent components</i> .....	253
<i>Unified methods for the transmission of information: the general case</i> .....	289
Dočev, K. <i>Some extremal properties of polynomials</i> .....	1704
Dubinskiĭ, Ju. A. <i>Some imbedding problems in Orlicz spaces</i> .....	1339
Dubovickii, A. Ja. and Miljutin, A. A. <i>Extremum problems with constraints</i> .....	452
Duničev, K. I. <i>Stratification of two-parameter families of lines by curves in <math>n</math>-dimensional projective space</i> .....	456
Dynkin, E. B. <i>The optimum choice of the instant for stopping a Markov process</i> .....	627
Džavadov, M. G. <i>A mixed problem for a hyperbolic equation involving a small parameter with the leading derivatives</i> .....	1400
Dzjadyk, V. K. <i>Theorems on the transformation and approximation of analytic functions</i> .....	983
Efimov, A. V. <i>On the nonsummability of orthogonal series by linear methods</i> .....	1227
Efimov, B. <i>Dyadic bicomcompacta</i> .....	496
<i>On dyadic spaces</i> .....	1131
<i>Metrizability and the <math>\Sigma</math>-product of bicomcompact spaces</i> .....	1405
Efimov, N. V. <i>Impossibility of a complete regular surface in euclidean 3-space whose Gaussian curvature has a negative upper bound</i> .....	843
Efremovič, V. A. and Tihomirova, E. S. <i>Continuation of an equimorphism to infinity</i> .....	1494
Egorov, I. P. <i>Riemannian spaces of the first three lacunarities in the geometric sense</i> .....	736

Egotov, Ju. V. <i>Optimal control in Banach space</i> .....	630
Ėidel'man, S. D. <i>The theory of general boundary value problems for parabolic systems</i> .....	487
Ėidel'man, S. D. and Ivasišen, S. D. <i>On prolongation of the solution of the Cauchy problem for parabolic systems</i> .....	556
Ėidel'man, S. D. and Lipko, B. Ja. <i>Boundary value problems for parabolic systems in regions of a general type</i> .....	614
Eremin, S. A. and Sadrov, A. F. <i>Complete systems and bases in spaces of functions analytic in Hartogs domains</i> .....	108
Ėskin, L. D. <i>The <math>\zeta</math>-function on the group of unitary matrices</i> .....	1579
Evstigneev, V. G. <i>Some properties of averaged functions</i> .....	257
Fedosov, B. V. <i>Asymptotic formulas for eigenvalues of the Laplacian in the case of a polygonal region</i> .....	1092
Fet, A. I. <i>Extremal problems for surfaces of bounded Gauss curvature</i> .....	1676
<i>Stability theorems for convex, almost spherical surfaces</i> .....	1723
Fidler, Miroslav and Ptak, Vlastimil (Fiedler, M. and Pták, V.) <i>Estimates and iterative methods for finding a simple eigenvalue of an almost decomposable matrix</i> .....	1097
Filippov, A. F. <i>Differential equations with many-valued discontinuous right-hand side</i> .....	941
Flaksmaier, Ju. (Flachsmeyer, J.) <i>Dini convergence in a function space</i> .....	1516
Fomenko, O. M. <i>Estimates of the Petersson inner product with application to the theory of quaternary quadratic forms</i> .....	1372
<i>The Fourier coefficients of Poincaré series of dimension -2</i> .....	1832
Fomenko, V. T. <i>Bending of surfaces with an edge</i> .....	1100
<i>Uniquely determined ovaloids with cuts</i> .....	1571
Frenkel', V. I. <i>Algorithmic problems in partially ordered groups</i> .....	1266
Fufaev, V. V. <i>Conformal transformations of domains with corners and differential properties in them of solutions of Poisson's equation</i> .....	1457
Gabisonija, O. D. <i>Estimation of the total best approximation of functions of many variables by partial best approximations</i> .....	1637
Gameckiĭ, A. F. <i>The optimality of the principal lattice of Voronoĭ of first type among the lattices of first type of any number of dimensions</i> .....	1014
Garkavi, A. L. <i>Cebyšev and almost-Cebyšev spaces</i> .....	532
Gašimov, G. M. <i>A uniqueness theorem for Dirichlet series</i> .....	727
<i>A theorem on the uniqueness of Dirichlet series for more general behavior of the exponents</i> .....	1695
Gasymov, M. G. <i>Analytic properties of the spectral function of a Sturm-Liouville self-adjoint operator</i> .....	780
<i>The sum of differences of eigenvalues of two selfadjoint operators</i> .....	838
Gasymov, M. G. and Levitan, B. M. <i>The sum of the differences of the eigenvalues of two singular Sturm-Liouville operators</i> .....	1123
Gavrilov, V. I. <i>The set of limit values of functions pseudo-analytic in the unit circle</i> .....	9
<i>Boundary behavior of functions meromorphic inside the unit circle</i> .....	893
Gehtman, M. M. <i>The spectrum of a non-selfadjoint differential operator of even order</i> .....	732
<i>On the principle of limit amplitude</i> .....	1592
Gel'fand, I. M. and Graev, M. I. <i>Irreducible unitary representations of the group of unimodular second-order matrices with elements from a locally compact field</i> .....	397
<i>Plancherel's formula for the groups of the unimodular second-order matrices with elements in a locally compact field</i> .....	975

Gel'fand, I.M. and Graev, M. I. <i>The structure of the ring of finite functions on the group of second-order unimodular matrices with elements belonging to a disconnected locally compact field</i> .....	1697
Gel'fand, I. M.; Pjateckiĭ-Sapiro, I. I. and Fedorov, Ju. G. <i>Determination of crystal structure by the method of nonlocal search</i> .....	1487
Gel'man, A. E. <i>Simple solutions of operator equations in the case of branching</i> .....	1483
<i>Analytic solutions for a class of operator equations</i> .....	1788
Genčev, T. G. <i>Ultraparabolic equations</i> .....	979
Glagoleva, R. Ja. <i>Continuous dependence on initial data of the solution to the first boundary value problem for a parabolic equation with negative time</i> .....	13
Glazunov, N. I. <i>Tensor fields of an <math>n</math>-dimensional sphere</i> .....	62
Gluskin, L. M. <i>Semiheaps with minimal left ideals</i> .....	1017
Gol'dberg, A. A. <i>Growth of an entire function along a half-line</i> .....	1491
Gol'dberg, V. V. <i>Laplace sequences of generalized Rose conjugate nets in <math>N</math>-dimensional projective spaces</i> .....	342
Golosov, Ju. I. and Tempel'man, A. A. <i>Likelihood ratio for hypotheses on the trend of certain Gaussian processes</i> .....	1796
Golovin, O. N. <i>Functor operations on the class of all groups</i> .....	285
<i>The lattice of polyverbal operations</i> .....	1792
Golovin, V. D. <i>Generalization of the notion of periodic continuation</i> .....	401
<i>Mean periodic functions</i> .....	569
Golštinškiĭ, V. <i>Addition theorems for the weights of topological spaces</i> .....	1128
Golubeva, V. A. <i>Singularities of fundamental solutions of partial differential equations with constant coefficients</i> .....	404
Gorčakov, Ju. M. <i>On infinite Frobenius groups</i> .....	1397
Gorčakov, V. N. <i>The asymptotic behavior of a spectral function of a hypoelliptic operator of a certain class</i> .....	1328
Grabar', M. I. <i>The equation <math>\frac{d\phi}{dt} = f - \alpha</math> in the phase space of a dynamical system</i> .....	164
<i>Indecomposable measures in dynamical systems</i> .....	204
Gromyko, V. P. <i>A new criterion of specialness for <math>\pi d</math>-groups with a given number of classes of inaccessible <math>\pi d</math>-subgroups of the same order</i> .....	897
Grušin, V. V. <i>The extension of smoothness of solutions of differential equations of principal type</i> .....	248
Gudiev, A. H. <i>On Sobolev's imbedding theorems for abstract functions</i> .....	18
<i><math>L(p_1, p_2, \dots, p_k)(\Omega_m)</math> classes and an imbedding theorem for abstract set functions</i> .....	346
<i>The Sobolev-Nikol'skiĭ problem for the limit exponent</i> .....	409
Gurariĭ, V. I. <i>Bases in spaces of continuous functions</i> .....	101
Gurevič, B. M. <i>A class of special automorphisms and special flows</i> .....	1738
Guseĭnov, A. I. and Gasanov, K. K. <i>Applicability of the Fourier method to the solution of the mixed problem for a certain class of quasilinear hyperbolic equations</i> .....	168
Guseĭnov, A. I. and Hudaverdiev, K. I. <i>Solution by the Fourier method of a one-dimensional mixed problem for quasilinear hyperbolic equations of the second order</i> .....	104
Harin, V. T. <i>An estimate of the accuracy of approximate eigenvalues and eigenvectors</i> .....	813
Hasin, G. B. <i><math>R</math>-nets with stratified congruences of the axes</i> .....	610
Havin, V. P. <i>Analytic representation of linear functionals in spaces of harmonic and analytic functions continuous in a closed region</i> .....	1039

Henkin, G. M. <i>Imbedding of the space of s-smooth functions of n variables into a space of sufficiently smooth functions of fewer variables</i> .....	1633
Hromov, A. P. <i>Expansion in eigenfunctions of ordinary differential operators with non-regular decomposing boundary conditions</i> .....	1575
Hudjaev, S. I. <i>Test for solvability of the Dirichlet problem for elliptic equations</i> .....	40
<i>The first boundary value problem for nonlinear parabolic equations</i> .....	441
Ibragimov, I. I. <i>Estimate of the norm of a linear operator in the class of entire functions of finite degree</i> .....	1497
Ibragimov, I. I. and Džafarov, A. S. <i>Estimate of a differential operator in the class of entire functions of finite degree</i> .....	1343
Iliadis, S. <i>Absolutes of Hausdorff spaces</i> .....	295
<i>Characterization of spaces by means of H-closed extensions</i> .....	501
<i>Certain properties of absolutes</i> .....	1409
Il'in, V. P. <i>On inequalities between norms of partial derivatives of functions of many variables</i> .....	784
<i>Some inequalities among norms of partial derivatives of functions of several variables</i> .....	1282
Iohvidov, I. S. <i>Operators with completely continuous iterations</i> .....	1640
Ionin, V. K. <i>Relations between the radii of the inscribed and of the circumscribed sphere of a closed convex surface</i> .....	66
Isakova, E. K. <i>The Cauchy problem for parabolic equations with a small parameter</i> .....	70
<i>A general boundary value problem for parabolic equations on a plane</i> .....	1804
Ismagilov, R. S. <i>The spectrum of Toeplitz matrices</i> .....	462
Ivanov, A. V. <i>The stability of certain numerical algorithms for inverting regular difference operators</i> .....	22
Ivanov, V. V. <i>On the Wiener-Hopf equation of the first kind</i> .....	1021
Jakovlev, A. V. <i>A problem in the imbedding of fields</i> .....	823
Jakut, L. I. <i>The problem of establishing the convergence of difference schemes</i> .....	954
Jankov, V. A. <i>Some superconstructive propositional calculi</i> .....	1103
<i>Realizable formulas of propositional logic</i> .....	1146
<i>Relationship between deducibility in the intuitionist propositional calculus and finite implicational structures</i> .....	1203
Janovskaja, E. B. <i>Quasiinvariant kernels in antagonistic games</i> .....	1049
Jarmuhamedov, Š. <i>On the growth of functions harmonic inside a cylinder and growing on the boundary with the normal derivative</i> .....	1380
Kagan, A. M. <i>Note on the Robbins scheme</i> .....	739
<i>On the theory of Fisher's amount of information</i> .....	991
<i>Families of distributions and separating decompositions</i> .....	1707
Kalašnikov, M. D. and Gubanov, G. P. <i>On polynomials of best (quadratic) approximation in a given system of points</i> .....	788
Kaliničenko, D. F. <i>The function space <math>K_{\Lambda}^{\alpha}(\Omega)</math> and some applications in the theory of boundary value problems</i> .....	743
Kalinin, V. N. <i>The existence of an absolute minimum in a problem in the theory of optimal processes</i> .....	573
Kamynin, L. I. <i>On the linear problem of Verigin</i> .....	847
Kamynin, L. I. and Maslennikova, V. N. <i>Boundary estimates of the solution of the third boundary value problem for a parabolic equation</i> .....	1711
Kaniev, S. <i>On the deviation from their boundary values of functions biharmonic in a circle ..</i>	1758

Kantor, I. L. <i>A generalization of reductive homogeneous spaces</i> .....	1173
Karacuba, A. A. and Korobov, N. M. <i>On the mean-value theorem</i> .....	350
Karatoprakliev, G. <i>Some boundary value problems for the equation <math>u_{xx} + \text{sign } y u_{yy} = 0</math></i> .....	535
<i>A modified <math>T_1</math> problem for the equation <math>u_{xx} + \text{sign } y u_{yy} = 0</math></i> .....	576
<i>A generalization of the T-problem for the equation <math>u_{xx} + \text{sign } y u_{yy} = 0</math></i> .....	1176
Karimov, B. <i>Linear Diophantine approximations</i> .....	112
Karpelevič, F. I. <i>Non-negative characteristic functions of the Laplace-Beltrami operator on symmetric spaces on nonpositive curvature</i> .....	1180
Karpilovskaja, E. B. <i>Convergence of the collocation method</i> .....	1070
Kaširskii, Ju. V. <i>Transference theorems</i> .....	505
Kiprijanov, I. A. <i>A variational method of solving a class of degenerate elliptic equations</i> .....	1231
Kirillov, A. A. <i>On <math>\infty</math>-dimensional unitary representations of the group of second-order matrices with elements from a locally compact field</i> .....	748
Kočetkov, A. N. <i>Extremal problems for analytic functions with positive real parts, satisfying some additional conditions</i> .....	117
Kogalovskii, S. R. <i>Quasiprojective classes of models</i> .....	114
Kokorin, A. I. <i>On fully orderable groups</i> .....	905
Kondrat'ev, V. A. <i>Boundary value problems for elliptic equations in conical regions</i> .....	1600
Korenbljum, B. I. <i>The Weierstrass theorem in spaces of infinitely differentiable functions</i> ...	852
Komeičuk, N. P. <i>Exact value of the best approximations and of the diameters of certain classes of functions</i> .....	856
Korobkov, V. K. <i>Estimation of the number of monotonic functions of the algebra of logic and of the complexity of the algorithm for finding the resolvent set for an arbitrary monotonic function of the algebra of logic</i> .....	753
Korotkov, V. B. <i>Representation of linear continuous operators by abstract functions, and imbedding theorems</i> .....	1645
Korpelevič, G. M. <i>On the relationship between the concepts of solvability and enumerability for finite automata</i> .....	509
Košelev, A. I. <i>Involutory transformations and the method of successive approximations for elliptic equations</i> .....	73
Kostrikin, A. I. <i>On the strong degeneration of simple Lie <math>p</math>-algebras</i> .....	637
Kotljars, B. D. <i>Approximation by entire functions of exponential type to functions defined outside an interval</i> .....	1074
Kozlovcev, S. G. <i>The structure of measurable functions without asymptotic derivative</i> .....	1348
Krasnosel'skii, M. A. <i>Stability of periodic solutions emerging from an equilibrium state</i> .....	679
<i>An alternative principle for establishing the existence of periodic solutions of differential equations with a lagging argument</i> .....	1412
Krasnosel'skii, M. A. and Strygin, V. V. <i>Computation of the rotation of completely continuous vector fields connected with the problem of periodic solutions of differential equations</i> .....	1351
Kreĭn, M. G. and Langer, G. K. <i>The spectral function of a selfadjoint operator in a space with indefinite metric</i> .....	1236
Kreknin, V. A. <i>Solvability of Lie algebras with a regular automorphism of finite period</i> .....	683
Kreknin, V. A. and Kostrikin, A. I. <i>Lie algebras with a regular automorphism</i> .....	355
Kručkovič, G. I. <i>Geodesic correspondence of semireducible Riemannian spaces</i> .....	1240
Krugljak, S. A. <i>Representations of the <math>(p, p)</math> group over a field of characteristic <math>p</math></i> .....	1809
Kružkov, S. N. <i>Certain properties of solutions to elliptic equations</i> .....	686

Kružkov, S. N. <i>A priori estimates for generalized solutions of second-order elliptic and parabolic equations</i> .....	757
Kudrjavcev, L. D. <i>Imbedding theorems for functions defined on unbounded regions</i> .....	1715
Kudrjavcev, V. B. <i>Powers of sets of precomplete classes of certain functional systems connected with automata</i> .....	1025
Kufarev, B. P. and Soboleva, S. V. <i>The continuum as a complete cluster set of a convergent sequence of analytic functions</i> .....	1762
Kužel', A. V. <i>Spectral analysis of bounded non-selfadjoint operators in a space with an indefinite metric</i> .....	1076
Kuz'minov, V. I. <i>Test spaces</i> .....	1416
Lař Dyk Thin' <i>On the number of divisors in an angle</i> .....	414
Landis, E. M. <i>A three-sphere theorem</i> .....	76
Lavrik, A. F. <i>The theory of quasiprime numbers</i> .....	1355
Lenskoř, D. N. <i>Estimation from above of certain number-theoretical functions in fields of algebraic numbers</i> .....	641
Leont'ev, A. F. <i>Completeness of the system <math>\{e^{\lambda_n z}\}</math> in a closed strip</i> .....	1286
Lepin, A. Ja. <i>The method of nets as applied to a hyperbolic system of quasilinear equations in the plane</i> .....	418
Leu, K. and Merkil, G. (de Leeuw, K. and Mirkil, H.) <i>Analysis and synthesis of rings of type C</i> .....	173
Levin, A. Ju. <i>Some problems bearing on the oscillation of solutions of linear differential equations</i> .....	121
<i>Linear differential equations of second order</i> .....	1814
Levin, V. L. and Rařkov, D. A. <i>Closed graph theorems for uniform spaces</i> .....	791
Levitan, B. M. <i>Determination of a Sturm-Liouville differential equation from two spectra</i> ....	691
Lihtman, A. I. <i>Normal subgroups of the multiplicative group of a skew field</i> .....	1425
Linnik, Ju. V. <i>Use of the complex variable in studying the Behrens-Fisher problem</i> .....	359
<i>Complex variables in problems involving nuisance parameters and finite-rank sufficient statistics</i> .....	512
<i>On Wald's test</i> .....	644
<i>On the theory of tests for two normal samples</i> .....	1360
Linnik, Ju. V. and Mitrofanova, N. M. <i>Asymptotic properties of the maximum likelihood</i> .....	421
Linnik, Ju. V. and Šalaevskiř, O. V. <i>On the analytic theory of tests for the Behrens-Fisher problem</i> .....	580
Litvinčuk, G. S. <i>Index and normal solvability of a class of functional equations</i> .....	514
Lizorkin, P. I. <i>Characteristics of the boundary values of functions from <math>L_p^r(E_n)</math> on hyperplanes</i> .....	794
<i><math>(L_p, L_q)</math>-multipliers of Fourier integrals</i> .....	1420
Ljance, V. Ė. <i>Expansion in characteristic functions of a non-selfadjoint differential operator with spectral singularities</i> .....	363
<i>Inversion formulas generated by a boundary value problem of second order on the half-axis in the class of unbounded functions</i> .....	798
<i>On the solution of certain boundary value problems by the Fourier method</i> .....	1430
Ljubarskiř, G. Ja. <i>A boundary value problem on the axis for a nonlinear equation of order <math>n</math></i> .....	424
Logunov, A. I. <i>On integral inequalities for equations of Volterra type with lagging argument</i> .....	647
Lokucievskiř, O. V. <i>On a problem of P. S. Uryson</i> .....	1080
Lomonosov, M. V. <i>On fundamental solutions of elliptic equations</i> .....	1289
Lomov, S. A. <i>Power series boundary layer in problems involving a small parameter</i> .....	125

Lorenc, A. A. <i>The solution of systems of equations in one unknown in free groups .....</i>	262
Lunc, G. L. <i>Dirichlet series with a sequence of complex exponents having angular density ..</i>	994
Maikov, E. V. and Fomin, S. V. <i>Measures on functional space and difference schemes .....</i>	429
Mak-Laren, A. D. (McLaren, A. D.) <i>Cubature formulas on a sphere .....</i>	1139
Maksudov, F. G. <i>The spectrum of singular non-selfadjoint differential operators of 2nth order</i>	1742
